

Land Use Classification Project Proposal

THAI LA, University of Saskatchewan, Canada

Enter abstract here

Additional Key Words and Phrases: Image, Classification, Land-Use

ACM Reference Format:

Thai La. 2023. Land Use Classification Project Proposal. *ACM Trans. Graph.* 37, 4, Article 111 (August 2023), ?? pages. <https://doi.org/XXXXXXX.XXXXXXX>

1 INTRODUCTION

Introduction to the project.

2 OVERVIEW OF THE DATASET

High level overview of the dataset

3 MOTIVATION

Motivation for the dataset and what I want to do with it.

4 PROBLEM

What type of problem it is, explain in terms used within the course, i.e. regression or classification or something else? Ideally what should the output be?

5 ANALYSIS

Quick analysis of what I will be doing.

5.1 Approaches

The approaches I will take.

6 IMPORTANCE

Outline the importance of this task and why it's challenging.

Temporary page!

L^AT_EX was unable to guess the total number of pages correctly. As there was some unprocessed data that should have been added to the final page this extra page has been added to receive it.

If you rerun the document (without altering it) this surplus page will go away, because L^AT_EX now knows how many pages to expect for this document.
